ARES

Ares model stairs are revered not only for their elegance but also for their seemingly weightless appearance, achieved by ingeniously concealing the stringer within the wall. This innovative design gives the impression that the steps are floating effortlessly, adding a touch of architectural marvel to any space. With options, such as glass railings and stainless steel or aluminum hand rails and a choice of wood or metal steps, these stairs redefine modern sophistication. Ares stairs create a captivating focal point in both residential and commercial environments, epitomizing the perfect blend of form and function.

FINISH ON METAL:	Powder coated
WOOD:	All

APOLLO

Apollo model stairs are a testament to sleek, urban design, featuring a mono steel beam stringer with steps expertly notched into the structure.

This bold and innovative design creates a visually striking staircase that combines industrial chic with modern elegance. The mono steel beam stringer offers structural integrity while maintaining an open and airy feel, perfect for maximizing space in both residential and commercial settings.

With options for a variety of step materials such as wood, or metal, the Apollo model allows for customization to suit individual tastes and architectural styles.

Whether showcased in a loft apartment or a contemporary office space, Apollo stairs make a statement of cutting-edge design, reflecting the dynamic energy of the iconic god they are named after.

HERA

Hera model stairs embody contemporary elegance with their distinctive design featuring dual metal stringers closed on both sides and open risers.

This unique configuration offers a blend of structural stability and visual lightness, creating a striking focal point in any space. The sleek lines and minimalist aesthetic of the Hera model exude sophistication, making it a perfect choice for modern interior designs.

A variety of tread options including wood or metal, these stairs seamlessly integrate into diverse architectural styles.

CRIUS

Crius model stairs epitomize contemporary design with their sleek and minimalist aesthetic.

Featuring a striking steel mono rail that runs through the middle of each step, These stairs exude modern sophistication and architectural innovation. The clean lines and minimalist structure of the Crius model create a sense of spaciousness and openness, making it an ideal choice for modern interior spaces. These stairs offer both durability and style.

Whether showcased in a residential loft or a cutting-edge commercial setting, Crius stairs make a bold statement, elevating any environment with their unmistakable modern flair.

CHAOS

With the Chaos steel central stringer staircase, you are combining versatility and style by providing a solid base structure for your staircase.

Whether it's for a classic straight staircase with wood treads or a contemporary staircase with glass railing, the Chaos central steel stringer will be your best ally.

The Chaos stair model is available in a variety of shades and colors and is made entirely in Canada.

POSEIDON

Poseidon model stairs boast a striking central double stringer crafted from metal, offering a perfect fusion of strength and contemporary design.

The bold presence of the central double stringer not only provides exceptional stability but also serves as a focal point, commanding attention in any space. This innovative design creates a sense of modern sophistication, accentuated by clean lines and minimalist aesthetics.

With options for various step materials such as wood or metal, the Poseidon model allows for customization to complement any interior style.

ZEUS

Zeus model stairs feature a distinctive central mono beam stringer that embodies contemporary elegance and structural integrity. The sleek and minimalist design of the mono beam stringer creates a visually striking centerpiece, adding a touch of modern sophistication to any space.

This innovative structural element not only provides exceptional support but also enhances the overall aesthetic appeal of the staircase. With customizable options for step materials such as wood or metal, the Zeus model allows for versatility to suit various architectural styles and design preferences.

PROCESS

At Monté Stairs, we're dedicated to providing a seamless journey from concept to completion for every staircase project.

Here's what you can expect:

Initial Consultation:

Begin by contacting us or visiting our showroom, where our knowledgeable sales representatives will assist you in selecting the perfect staircase design for your space.

Site Assessment and Measurement:

Our team will conduct a thorough review of your building plans and take precise measurements at your location to ensure a custom fit.

3D Mockup and Rendering:

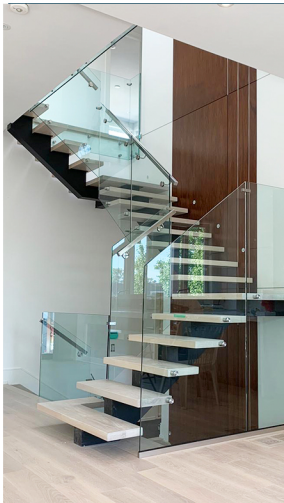

Utilizing cutting-edge 3D software, we'll create a detailed mockup of your staircase design, allowing you to visualize the final product and make any necessary adjustments.

Manufacturing:

Once the 3D mockup is approved, our skilled craftsmen will begin the manufacturing process, using only the finest materials and techniques.

Installation:

Our professional installation team will expertly install your staircase with precision and care, minimizing disruption to your daily routine.

Final Touch-Ups:

We'll perform any necessary final touch-ups to ensure that every detail is perfect, ensuring your complete satisfaction.

Project Completion:

Step back and admire the stunning transformation of your space, knowing that your staircase has been customized to your exact specifications and built to last.

At Monté Stairs, we're committed to delivering excellence at every stage of the process, from design to installation. Trust us to create a staircase that not only enhances the beauty of your space but also reflects your unique style and vision.

GUARANTEE

We stand behind every staircase and railing system we distribute with unwavering confidence. Our commitment to quality and customer satisfaction is reflected in our comprehensive 5-year warranty, covering both materials and workmanship.

We understand that investing in a staircase or railing is an important decision, which is why we prioritize transparency and accountability in our guarantee. Should any issue arise with your staircase or railing, rest assured that we will be there to promptly address and resolve it. We value our customers and believe in standing by our product and craftsmanship, ensuring that you receive the support and assistance you need, even after full payment has been received.

Reaching us is always convenient and straightforward. Our dedicated team is just a phone call or email away, ready to provide assistance and support whenever you need it. Additionally, our office and showroom are conveniently located at the outskirts of downtown Toronto, in the Rosedale area, at B-1268 Yonge Street. Open five days a week. Our showroom provides the perfect opportunity to explore our extensive range of stair and railing options in person, and to discuss your project with our knowledgeable staff.
